In-House Leasing
See inside for full details

In-house Leasing and Rental Facility

Upgrading or re-fitting your commercial kitchen can be an expensive task.

By taking advantage of our great value weekly leasing you can enjoy a new kitchen for a lot less than you would imagine.

- Small initial outlay
- Cash flow is protected and the equipment earns revenue in payment of the lease
- Rentals are 100% allowance against tax
- Banking facilities are left available for special project and unforeseen expenses.

We offer excellent leasing or rental rates. Simply decide on what equipment you require and we will do the rest for you.

Because we lend our own money, we can make a quick decision for peace of mind, allowing you to concentrate on the more important day to day tasks of running your business.

We do not rely on an impersonal service and credit scoring, but are committed to dealing with our customers on a personal basis.

Walk-in Cold Rooms and Freezer Rooms

Isark

- Installation not included, price subject to a site survey
- Free mainland UK delivery
- Bespoke sizes available on request
- Split systems available on request.

Easy to erect

High Quality Materials

The best materials are used to ensure quality and hygiene, thanks to modern manufacturing techniques meeting the most demanding European Standards.

Food-safe grade, galvanised steel cladding is used for the vertical walls and roof.

Floor panels for negative temperatures cold rooms are reinforced and offer a finishing made of synthetic resin or stainless steel.

Positive temperature cold rooms, without floor, are supplied with a special PVC profile which includes a floor skirting, ensuring simple assembly and a perfect finish.

ISARK allows storage volumes between 2 & 20m³ and is the most inexpensive solution per m³ in the market, conceived for small restaurants, fast-food, food shops and even private individuals.

Shelving Units

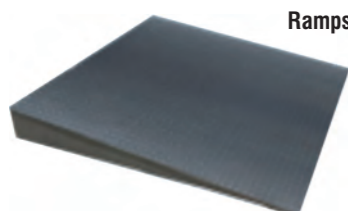

- Easy assembly
- Multiple options
- Simple maintenance (Inc in price)

Extraction Systems

Complete Extraction Solutions Pack

- Choose from 3 types of canopy designs (duct work, fittings and installation not in)
- Contains canopy, baffle filters, speed controller and fan motor.

 FROM
£1199

Designed to give you the right kit for the job and a pocket full of savings. The Parry Canopy Value Pack brings together all the separate elements you need in one pack. We source and stock only the best components to ensure that the pack not only offers great value but exceptional performance and reliability. Systemair® controllers and AZ® fan units combined with our robust canopy enclosures guarantee you the best price and performance from names you can trust.

Completely Baffled

All Parry canopies now sport solid stainless-steel baffles throughout. Gone are the days of mesh filters (and we know some people may miss them) but our new baffles are great in so many ways you'd be mad not to make the change.

Cleaner

Made from high quality stainless-steel, the new baffles are extremely easy to clean unlike mesh filters and this means that your kitchen is a nicer place to work. And because they are easier to clean it means that they are healthier for the cooking environment, something that will keep the local health inspectors smiling.

Stronger

Combine with this their increased robustness over the old mesh type and you can see why they are the preferred choice for the modern kitchen. Want to see what it's all about? Visit your local Parry stockist or drop into our head office and see them working in our showroom.
